

Instructions for Creating Video

Note: Please ensure that the video uploaded is of good quality and conforms to the instructions given below.

1. The resolution of the video should be good enough for judging. You have to use a 8 Megapixel or higher camera to shoot the video.
2. The video should be taken by keeping the camera in the top such that the entire arena is visible to the viewer. Here are a few tips for shooting good quality video:
 - Camera should be kept stable while recording.
 - Light the arena such that there is no reflection into the camera.
 - Keep the background, lighting in background, etc. constant during the video shooting so that it doesn't show as a discontinuity in the video.
 - There should be no interference in terms of background noise or movement while shooting the video.

NOTE: The video **MUST** show full arena during the course of its traversal in a run. See Figure 1 for reference.

Figure 1: An Example

3. It is mandatory that you upload the demo video even if your task is not completed. You may record the video of best run of the bot on the arena.
4. **Uploading video/s on YouTube:**
 - Upload video with the title **eYRC#AB#<Team ID>_ProgressVideo**
(For example: If your team ID is 6001 then, save it as eYRC#AB#6001_ProgressVideo)
 - Please note that while uploading the video on YouTube select the privacy setting option as **Unlisted (Refer to Figure 2)**.

You need to upload the video as instructed on the portal.
